

United Spirits may lose fizz on near-term woes

Long-term prospects promising, but there are no immediate triggers

RAM PRASAD SAHU
Mumbai, 5 June

The stock of United Spirits Limited (USL), the country's largest liquor company by market capitalisation (mcap), has gained 11 per cent over the past week on double-digit growth guidance, rising premiumisation trend, operationally in-line performance in the March (Q4FY24) quarter and a rally in consumer stocks. Nevertheless, near-term demand woes could be a cause for concern.

The revenue growth of the company came in at 7 per cent year-on-year (Y-o-Y), mirroring the growth of the prestige and above (P&A) segment. This segment, comprising premium brands, accounts for 88 per cent of the revenues. The popular segment saw a revenue growth rate of 3.7 per cent on volumes of 4 per cent.

The ongoing premiumisation trend is aiding the growth of the P&A portfolio, and better pricing is helping drive value growth in the category.

The company, which ended FY24 with a growth of 10.5 per cent, expects to maintain the double-digit growth trajectory going ahead.

The company, which ended FY24 with 10.5% growth, expects to maintain double-digit growth trajectory

The FY24 growth in the P&A segment was 11.8 per cent and was a combination of 5.4 per cent volume growth and about 6.1 per cent uptick from realisations per case.

The growth in the current financial year may be back to low on account of a high base of last year and subdued demand environment. The company has invested in new products/innovations across its portfolio.

Elara Securities' Karan Taurani and Rounak Ray believe these innovations do not meaningfully contribute to revenue/profitability and they await potential market

share gain and profitability.

Even as the top line performance was better than estimates, profitability was impacted on account of higher raw material costs.

The gross margin was lower by 200 basis points (bps) over the year-ago quarter while it was flat on a sequential basis at 43.3 per cent. Higher prices of extra neutral alcohol (ENA) led to pressure on gross margins.

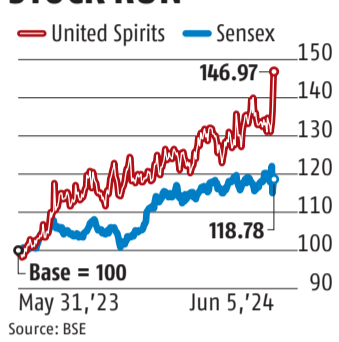

Analysts led by Naveen Trivedi of Motilal Oswal Research believe that gross margins are still far off from the 48-49 per cent levels achieved in FY18-19.

After witnessing high raw material inflation in the last four years, glass prices are likely to stabilise, but ENA inflation remains firm, rising 11 per cent Y-o-Y. The brokerage estimates a gross margin print of 44 per cent each for FY25 and FY26.

It has a 'neutral' rating on the stock and doesn't expect much upside from these levels.

Margins at the operating level at 7 per cent were flat as high input costs were negated by the decline

in ad spends. The company expects ENA prices to remain elevated in the medium term due to the government's focus on ethanol blending.

IIFL Research has maintained its 'add' rating.

Say analysts led by Percy Panthaki of the brokerage: "While current demand conditions remain challenging and ENA price is inflationary, the management is confident of delivering modest margin expansion via cost efficiency plans and premiumisation. We believe that the long-term story for United Spirits is exciting, although it lacks near-term triggers."

Check mid-market exchange rate when sending money abroad

KARTHIK JEROME

Outward remittances through the Liberalised Remittance Scheme (LRS) reached a record \$31.73 billion in financial year 2023-24, a 16.9 per cent increase year-on-year. This surge occurred despite higher Tax Collected at Source (TCS) rates being imposed on foreign remittances from October 1, 2023 onwards.

"The threshold limits from which TCS rates apply are on the higher side compared to regular business ticket sizes. TCS can also be claimed as refund while filing tax return, which is why there has been no impact on outward remittance," says T C Guruprasad, executive director, EbixCash.

Right exchange rate

The cost of money transfer has two components. "Pay heed to the total amount you pay in a transaction, which includes intermediary charges (the upfront fees) and the foreign exchange conversion rate,"

says Guruprasad.

The exchange rate can carry a hidden cost. On Google, check the mid-market exchange rate, the mid-point between the "buy" and "sell" rates in the global currency markets. "The mid-market rate is considered the most fair exchange rate. However, a lot of providers add a markup, which translates into a hidden fee as it's not shown transparently to customers," says SK Saraogi, Asia-Pacific head of expansion, Wise.

Use comparison websites or tools to find the most competitive rates. "Avoid players that offer fixed daily rates and go with the ones that offer live rates," says Joy PV, senior vice-president & country head, deposits, wealth, & banca, Federal Bank.

Right provider

Ensure the money transfer provider is a licensed entity. "The Reserve Bank of India (RBI) has advised customers to deal in forex only with 'authorised persons' and on 'authorised elec-

tronic trading platforms' listed on the RBI website," says Joy.

The brand should also be credible and trusted and have been operating for several years. It should also have customer support that is easily accessible. Guruprasad suggests going with a provider that alerts customers regarding exchange-rate fluctuations.

Speed of transfer is crucial. "Especially for education and healthcare payments, the transfer must be completed by the date the money is needed," says Saraogi.

Play by the rules

A resident individual can transfer up to \$2,50,000 per financial year under LRS. "This includes loans or gifts in Indian rupees to non-resident Indian (NRI) relatives," says Joy. Money should not be remitted for purposes prohibited under the Foreign Exchange Management (Current Account Transactions) Rules, 2000.

"The person remitting money needs to have a valid Permanent Account number (PAN) linked to Aadhaar number," says Vinod AN, general manager & head treasury, South Indian Bank.

The customer must furnish Form A2 to purchase foreign exchange under LRS. "In case of remittance for education purposes, submit the university's offer letter, the fee schedule, the student ID, and so on. In case of medical treatment, submit the hospital's medical reports, the invoice, and so on," says Vinod.

Comply with tax norms

Remitters must deposit the appropriate TCS amount for

LRS remittances. "While TCS can be claimed as refund, there will be a cash flow impact due to it, which one needs to provision for," says Vishal Dhawan, chief financial planner, Plan Ahead Wealth Advisors.

Overseas assets created by investing money via the LRS route must be reported in tax returns. "Paying tax on income from foreign assets each year is also essential," says Dhawan.

He also cautions about the need to be aware of the rules regarding repatriation of funds, obtained by liquidating foreign assets, within a stipulated timeframe.

FDs to Invits: Low-risk investment options

A day after their biggest percentage losses in about four years, the Indian stock market benchmarks — the Sensex and the Nifty 50 — made a significant recovery on Wednesday. Amid high market volatility, what should investors do? Amar Ranu, head, Investment Products & Insights, Anand Rathi Shares and Stock Brokers, advises: "Building a portfolio that includes some less-risky assets can help you ride out market volatility."

LOWER RETURNS IN LONG RUN

While this strategy may lower your risk exposure, it often results in lower returns over the long run. Here are some low-risk investment options to consider for safeguarding your finances:

- Savings accounts
- Post office savings schemes
- Public provident fund account (PPF)
- Fixed deposits (FDs)
- Non-equity mutual funds
- Invits (infrastructure investment trusts)

DIVERSIFY TO SECURE YOUR FINANCIAL FUTURE

"By diversifying their portfolio to include these low-risk options, investors can better withstand market fluctuations and secure their financial future," says Amar Ranu.
